1. Inleiding

In de brochure 'De oudheid in film' heb ik in 1995 een 1061 films verzameld die een directe band hebben met de oudheid. In 2003 telde mijn filmografie al 1732 titels en ondertussen is dit aantal opgelopen tot niet minder dan 2412 films, terwijl de lijst zeker nog niet exhaustief is. De verklaring van deze stijging heeft niet zozeer te maken met het feit dat er de laatste jaren zoveel nieuwe films zijn uitgebracht, dan wel met de stijgende belangstelling die het onderwerp 'de oudheid in film' de laatste twee decennia kon genieten. Steeds meer artikels en boeken verschijnen met nuttige filmografieën en overzichten, terwijl ook de films van vóór 1930 - die 33 % van mijn bestand uitmaken - steeds meer aandacht krijgen in de wetenschappelijke literatuur. Vooral de Internet Movie Database (<http://www.imdb.com/>) is een onuitputtelijke bron van informatie, die nog maar gedeeltelijk verwerkt is in mijn eigen bestand.

Regelmatig kreeg ik de vraag of er een tweede uitgave van mijn brochure zou verschijnen, maar jammer genoeg ontbreekt mij voorsnog de tijd om de volledige brochure te herschrijven. Niet alleen dienen immers de 1400 nieuwe films verwerkt, maar voor heel wat films heb ik ondertussen nieuwe informatie over de inhoud, of is de oorspronkelijke titel achterhaald, terwijl een aantal 'ghost titles' zijn geëlimineerd of geïdentificeerd met andere films. Ik kan voorlopig dan ook alleen mijn meest recente filmografie over de prehistorie, de oosterse, de Griekse en de Romeinse wereld aanbieden. In 1995 was hoofdstuk 8 over de terloopse verwijzingen naar de oudheid in allerhande films eerder een korte kennismaking met het fenomeen, maar ondertussen bezit mijn databank zoveel gegevens van deze aard uit niet minder dan 2973 verschillende films, dat ze elders een aparte behandeling verdienen. Hoofdstuk 9 bevatte een overzicht van de documentaires die op video voorhanden waren in de twee videotheken van de faculteit Letteren van de K.U.Leuven, maar vermits het medium video ondertussen achterhaald is, schrap ik dit overzicht; mijn lijst van 647 documentaires is beschikbaar op aanvraag.

De filmografie is alfabetisch geschikt en bevat voor elke film - indien gekend - de oorspronkelijke titel; eventuele alternatieve of vertaalde titels (tussen rechte haakjes); de datum van de eerste vertoning; het land van herkomst; kleur (zonder aanduiding) of zwart-wit ('BW'); de lengte in minuten; een beoordeling (sc. het aantal sterren gegeven in de *Speelfilmencyclopedie*, 1995, dus alleen voor de oudere films; films die ik recent gezien heb, krijgen mijn persoonlijke beoordeling); de soort film (bv. televisiefilm of -reeks, theater- of opera-registratie, tekenfilm, musical); de naam van de regisseur ('Dir.:'); de naam van de producent ('Prod.:'); een selectie uit de acteurs ('Act.:'); het boek, de strip, het toneelstuk, de musical, de opera of de film waarop een film gebaseerd is ('Adaptation of'); en bibliografische verwijzingen naar gepubliceerde foto's ('Ill.:'). Om de lijst internationaal bruikbaar te maken zijn de gegevens in het Engels gesteld.

4. De oosterse wereld

Binnen de 550 films die zich afspelen in de oosterse wereld, vinden we een drietal krachtlijnen, die evenwel heel wat raakvlakken hebben met elkaar: verfilmingen van het Oude Testament, thema's in verband met Egypte, en films over het Assyrische en het Babylonische Rijk. De romance van de Egyptische koningin Kleopatra met Iulius Caesar en Marcus Antonius zal aan bod komen in § 6.

6. De Romeinse wereld

Met 944 films is dit hoofdstuk het meest uitgebreide van ons overzicht, maar dat is niet echt verwonderlijk. Niet alleen wordt meer dan 1500 jaar 'geschiedenis' van Rome behandeld, van de komst van Aeneas in Latium tot de regering van keizer Iustinianus in de 6e eeuw n.C., maar ook de vele verfilmingen van het leven van Jezus van Nazareth en van de lotgevallen van de eerste christenen vinden hier een plaats.

7. Een onduidelijk historisch kader

De 160 titels in dit overzicht kunnen opgedeeld worden in twee groepen. De eerste groep bevat de films over de god van de zee, over Amazonen en over Atlantis; deze thema's hadden oorspronkelijk directe banden met de oudheid, maar die worden in de films zelf slechts zelden geëxpliciteerd. Met de tweede groep gaat het om films waarvoor de regisseur vooral bekommerd was om de spektakelwaarde en hij geen - of een onmogelijk - historisch kader creëerde; hierbij werden vaak anachronistisch Griekse, Romeinse en andere elementen met elkaar verweven. Deze groep van films wordt vaak omschreven als peplum- of sandalenfilms, naar de (zogezegd) typische kledingstukken uit de oudheid.

8. Verwijzingen naar de oudheid

Het aantal films waarin gealludeerd wordt op de oudheid zonder dat het thema van de film als zodanig expliciete banden heeft met die oudheid, is enorm. In mijn bestand bevinden zich reeds niet minder dan 2973 dergelijke films en dan gaat het nog voornamelijk slechts om films die de laatste twintig jaren zijn uitgekomen. Deze allusies bestrijken de verschillende perioden [Prehistorie: 122; Oosterse wereld: 591; Egypte: 558; Griekse wereld: 1190; Grieks: 542; Romeinse wereld: 869; Latijn: 890; Bijbel: 727], maar een verdere analyse is hier niet op zijn plaats.

De lijst van allusies geeft een mooie indicatie van het aantal en de aard van verwijzingen naar het verleden die enerzijds leven bij de filmmakers en waarvan anderzijds verwacht wordt dat het publiek ze onmiddellijk begrijpt zonder verdere uitleg, met andere woorden: het 'Nachleben' van de oudheid in actie.
